Who we are:

Donnycarney Family and Child service was established in 2015, providing targeted services to meet the identified needs of families and children in the area.

The Family and Child Service provides support to a range of people: family members of people with addiction issues; parents who are looking for support in dealing with difficult teenager behaviours; family members looking to build and work on relationships; young people looking for support around their own addiction or loved ones addiction.

Individual Programs for the Family and Child Service are tailored for the support of the parents and their children to address issues that are impacting their family life.

Services are available to those living in the Dublin North East Drug & Alcohol Task Force
